## THE ESSENCE OF CERAMICS

Catalano is the Italian company that offers incomparable quality and unique sanitary ware design made of pressure-cast fireclay. The development of advanced techniques over its 40 year history has permitted Catalano to produce over 200 unique Italian made products. Quality and award winning innovation that is revered throughout the world in over 80 countries ... that is CATALANO.

Catalano's business ethic is respectful to human beings and the environment through it's strong commitment to the reduction of energy costs, attention to water preservation, and functionality improvements of products.

## CATALANO ROBOTIC PRECISION

Catalano goes forward with strength and conviction in the coming years with products specifically designed for high-quality architecture, made in order to stimulate and influence the architecture sector in which they are located. Strong investments in technology and organizational processes has made Catalano the more automated factory in the world with the latest equipment - designed together with manufacturers - to address all phases of the production process and ensure the highest quality.

We're not talking about machineries and robots that perfectly make mass-produced items, but audacious projects that push the plants to work on technological and production potentials as yet unexplored. In recent years, Catalano has introduced products with very thin and extreme geometries representing a challenge both for ceramic material and production systems; now, with the collaboration of great architects, the challenge will be much more courageous.

Every piece is hand finished by skilled craftsmen in Italy to achieve the highest quality and to create a style and details unique to Catalano.

**CATAGLAZE** Cataglaze is the high-performance glaze by Catalano, a revolutionary treatment that improves the surface hygiene, facilitates water flow and cleaning, and ensures lasting, unalterable brightness. Cataglaze is a lifetime treatment, which means it lasts as long as the ceramic itself.

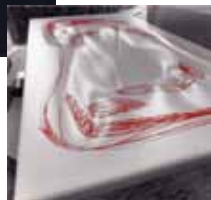

Catalano is a member of GBC Italy, the Italian association that works to promote and accelerate the diffusion of sustainability culture, driving the market transformation.

Studio of Doriana & Massimiliano Fuksas of Rome

This is the headline of a new drive for Catalano, made by items specifically designed "for" high-quality architecture, made in "order to" stimulate and influence the architecture sector in which they are located. These items are designed by prestigious names in international architectural scene - together with Catalano - starting from Doriana and Massimiliano Fuksas in Rome and followed by other great designers.

Only a company that for over forty years constantly pursues innovation and quality can aspire to have exchanges with people who are shaping the image of the greatest cities in the world.

COLLECTION

---

CATALANO | USA  
THE ESSENCE OF CERAMICS

*typological versatility*

# ZERO

Zero collection products are based on the "typological versatility" concept. This revolutionary idea allows several solutions for product installation.

Zero collection includes more than 40 products in different sizes and typologies with shapes based on the square matrix. Zero collection includes Zero, ZeroDomino and ZeroTondo. Some Zero products available in black.

*linear outlines*

# ZERO

The washbasins of the Zero Collection match linear outlines with functionality.

Washbasins for wall-hung, semi-inset, or sit-on installation, 0 up to 7 tapholes. Chrome brass front towel rails are available. Some Zero washbasins are available in black finish.

*typological versatility*

# ZERO

---

The 1.2 gpf wall-hung and 1.28 gpf floor-mounted toilets celebrate the Catalano business ethic to be respectful to human beings and the environment with the attention to water preservation.

*installation versatility*

# ZERO DOMINO

---

ZeroDomino products are based on a typological versatility concept. This revolutionary idea allows various solutions for product installation.

*typological versatility*

# ZEROTONDO

ZeroTondo washbasins offer versatility in installation with wall-hung, semi-fitted and sit-on applications. A front towel rail is available for wall-hung Zero Tondo washbasins 67, 62 and 50

# VERSO

Verso is the most innovative of Catalano's range where the ceramic material reaches its highest quality level.

The compact dimensions are the distinctive characteristics of the Verso Collection. All products are based on the square matrix. Verso offers washbasins for side wall-hung, sit-on, semi-inset or undercounter installation.

Verso is made up of four systems: Verso, Versotrentasette, Versoventicinque and Versocomfort.

Some Verso items are also available in black finish.

## PROIEZIONI

---

A range of sanitary-ware items, inspired by lightness; a distinguished synthesis of elegance, functionality and innovation. A refined balance of shapes, materials and dimensions. Proiezioni is a sanitary-ware range made up of eleven washbasins with minimum width, divided into groups according to their different typological characteristics: 120, 105, 90, 75, 42 and 40 washbasins are suitable for wall-hung, sit on and inset installation while 80, 60 and 42 washbasins are suitable for wall-hung and sit on installation, wide 140 washbasin with asymmetric sink and multifunctional counter and 125 washbasin with asymmetric sink are both suitable for wall-hung and sit on installation. Dedicated chrome aluminium towel rails are available for all washbasins.

# Velis

---

This collection is made by simple and atavistic items. It is a system marked by toilets and washbasins' soft shapes but also for the minimum thickness. This slimness represented a new technological challenge in pushing the boundaries of ceramic material manufacturing. A challenge successfully succeeded, that led to the research for lightness as a standard trend in contemporary bathroom design. In its first concept, Velis is made up of six washbasins and a wall-hung water efficient toilet. Some items are also available in satin white finish.

*light, strong  
resistant*

## VELIS 100 WASHBASIN

CATALANO | USA  
THE ESSENCE OF CERAMICS

*balance between  
simplicity and essentiality*

# sfera

The Sfera Collection is marked by simple and soft morphologic solutions, able to express the achieved balance between simplicity and essentiality in ceramic items.

Products are enriched by peculiar reflections that only the best ceramics can guarantee.

The Collection features two washbasins (washbasin 100 and washbasin 80) that are characterized by an extreme thinness.

The wall-hung toilet with an innovative soft-close toilet seat and 1.2 gpf / 4.5 liter flushing system in compliance with Catalano Water Efficiency program.

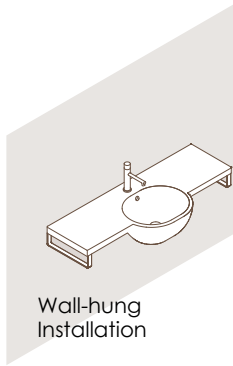

*Sharing the same simple and soft morphologic solutions Catalano has included the C1, C2 and C3 sanitary ware offerings within the Sfera Collection.*

*balance between  
simplicity and essentiality*

## ROYAL

by Catalano

The Canova ROYAL Collection is a sanitary-ware family which expresses the renewed feeling of Catalano towards classic and harmonious outlines. It represents the updating of the historical Canova collection, designed for bathrooms with traditional atmosphere. Soft and elegant shapes, clearly inspired by the neoclassicism, determine a timeless and refined style. The value

of memory is the leading concept that drives this accurate restyling.

The collection is made up of a 90, 70 and 56 cm sized washbasins, suitable for wall-hung, floor stand, base cabinet or pedestal mounted installation, undermount washbasins and floor-standing toilets. The toilet seat features the innovative Soft-Close system.

STAR collection reaffirms the experimentation to create sanitary-ware items with perfect and rigorous shapes, by reducing the ceramic to minimum thickness. This slinness represented a new technological challenge in pushing the boundaries of ceramic material manufacturing. STAR washbasins are suitable for wall-hung, semi-fitted or sit on installation. Restyled 55 wall-hung toilet, with new fixing system without lateral holes, can be combined to STAR washbasins. The 55 toilet has 1.2 gpf 4.5 lt flushing system, in compliance with Catalano Water Efficiency program.

CATALANO | USA  
THE ESSENCE OF CERAMICS

---

# Premium COLLECTION

---

**CATALANO** | USA  
THE ESSENCE OF CERAMICS

All Premium washbasins are suitable for wall-hung - with a specific integrated towel rail - or sit on installations. Five different sizes (100, 80, 60, 50, 40 cm) are designed to fully meet the needs of the demanding markets. It is a real industrial product system, resulted from automated technologies introduced by Catalano in recent years.

*lightness and subtlety*

# Premium

The new Premium Collection washbasins are the evolution of Catalano's coherent, continuous and multifaceted design philosophy, that gave birth to some of the company's masterpieces such as Verso and Zero. Premium washbasins combine lightness and subtlety to a clean outline; its unmistakable square matrix gives a contemporary and versatile character to the whole range and makes it perfect to fit many kinds of installations and any setting.

# Premium by Catalano
